1. Project Overview

1.1 Project Name

Chilmund Chemicals Corporate Website

1.2 Purpose of the Website

The website will serve as the official digital presence of Chilmund Chemicals, presenting the company as a leading African manufacturer of water treatment chemicals and enabling customers, partners, and stakeholders to easily access information and contact the company.

The website should:

- Showcase the company's manufacturing capabilities
- Promote products and services
- Highlight regional market presence
- Demonstrate industry credibility
- Promote corporate social responsibility initiatives
- Enable fast customer communication through WhatsApp and direct contact

2. Website Objectives

The website must achieve the following objectives:

Objective	*Description*
Corporate credibility	Position Chilmund as a trusted African chemical manufacturer
Product visibility	Clearly explain chemical products and applications
Lead generation	Allow potential clients to quickly request quotations
Regional presence	Showcase markets across Southern Africa
Community engagement	Present CSR activities
Easy contact	Provide instant communication channels

3. Key Website Principle

The most important design principle for the website is:

Make it extremely easy for a customer to contact Chilmund immediately.

Therefore, the website must prioritize:

- WhatsApp contact
- Call buttons
- Quick quote requests
- Contact forms

These should appear prominently across all pages.

4. Website Structure (Site Map)

Main website pages:

- Home
- About Chilmund
- Products & Services
- Uses of Aluminium Sulphate
- Manufacturing Plant
- Trucking & Logistics
- Regional Markets
- Industry Partnerships & Accreditations
- Safety Health Environment & Quality (SHEQ)
- Corporate Social Responsibility
- Industry Awards
- News & Events
- Contact Us

5. Page Requirements

5.1 Home Page

Purpose

Provide a strong introduction to the company and immediately allow visitors to contact the company.

Key Content

- Large banner introducing Chilmund Chemicals
- Short company introduction
- Manufacturing capability highlight
- The three company pillars:
    - Quality
    - Affordability
    - Service Excellence

Quick Highlights Section

- Production capacity: 7,200 metric tons per month
- Manufacturing location: Bindura, Zimbabwe
- Regional supply across Southern Africa

Contact Actions (Highly Visible)

The following buttons must appear clearly on the homepage:

- WhatsApp Us
- Call Sales
- Request a Quote
- Email Sales

5.2 About Chilmund

Sections

Company Overview

- Introduction to Chilmund Chemicals
- Transition from trading to manufacturing
- Industry leadership

Who We Are

- Manufacturing plant in Bindura
- Strategic position in African water treatment industry

Vision

To be the most sustainable and trusted Pan-African water treatment chemicals partner.

Mission

Deliver result-oriented water solutions that enhance lives and livelihoods.

Core Values

1. Quality
2. Integrity and Excellence
3. Teamwork and Innovation
4. Environmental Responsibility
5. Diversity and Inclusion
6. Growth Partnerships
7. Positivity and Empowerment

5.3 Products and Services

Product Categories

Category	*Description*
Coagulants	Aluminium sulphate and related products
Flocculants	Water clarification chemicals
Disinfectants	Water purification chemicals

Each product page should include:

- Product description
- Technical information
- Applications
- Packaging information
- Safety details
- Product enquiry button
- WhatsApp enquiry button

5.4 Uses of Aluminium Sulphate

Educational page explaining applications.

Industries covered:

- Drinking water purification
- Wastewater treatment
- Swimming pools
- Paper manufacturing
- Textile dyeing
- Agriculture
- Food processing
- Medical applications
- Concrete additives
- Firefighting foams

Purpose:

- Demonstrate industry expertise
- Educate potential clients

5.5 Manufacturing Plant

Content

- Description of the Bindura manufacturing plant
- Production capacity
- Technology used
- Environmental sustainability
- Closed-loop production system

Additional Features

- Image gallery
- Plant photographs
- Production statistics

5.6 Trucking and Logistics

Content

- Company-owned fleet of trucks and tankers
- Logistics capabilities
- Efficient delivery across Zimbabwe and the region
- Supply chain reliability

Optional Feature

Regional logistics coverage map.

5.7 Regional Markets

Highlight Chilmund's presence in Southern Africa.

Markets Served

Country	*Partner*
Mozambique	FIPAG
Angola	Acqua Corp
Other regional markets	Expanding operations

Purpose:

Demonstrate regional credibility and capacity.

5.8 Industry Partnerships and Accreditations

Certifications

- SAZ Product Mark Certification

Compliance With

- ZIMRA
- PRAZ
- NSSA
- ZIMDEF

This section reinforces regulatory compliance and credibility.

5.11 Industry Awards

Display company recognitions such as:

- Best Exhibitor – SADC Industrialization Week
- Company of the Year – Mashonaland Central
- Best Innovator – National Business Awards
- Outstanding Investor – Africa Investment Leaders Forum

5.12 News and Events

Examples:

- Plant commissioning by the President
- Industry exhibitions
- CSR events
- Product announcements

Purpose:

Keep the website active and current.

5.13 Contact Us

This is one of the **most important pages**.

Contact Information

Head Office
114 Harare Drive
Marlborough
Harare

Manufacturing Plant
914/15 Kingston Road
Bindura

Contact Channels

- Phone numbers
- WhatsApp contact
- Email addresses
- Contact form

Features

- Google map location
- Quick enquiry form
- Sales contact details

6. Live Contact Features (Critical Requirement)

The website must support **immediate communication with customers**.

Required Contact Options

Feature	*Purpose*
WhatsApp chat button	Instant messaging with sales
Click-to-call	Direct phone contact
Quick quote form	Request pricing
Email link	Send enquiries
Floating contact button	Always visible

WhatsApp Integration

The WhatsApp contact button must:

- Be visible on all pages
- Open direct conversation with sales
- Allow customers to send product enquiries

Example message template:

- Hello, I would like to enquire about aluminium sulphate supply.

7. Non-Functional Requirements

Requirement	*Description*
Mobile friendly	Must work well on phones
Fast loading	Optimized images
Secure	HTTPS
Reliable	High uptime
Scalable	Easy to add products or markets
Easy updates	Content editable by staff

8. SEO Requirements

The website should rank for keywords such as:

- Aluminium sulphate manufacturer
- Water treatment chemicals Africa
- Water purification chemicals
- Water treatment Zimbabwe
- Industrial chemical suppliers Africa

9. Analytics

The website should track:

- Website traffic
- Page visits
- Product enquiries
- Contact form submissions
- WhatsApp click activity

10. Maintenance

Regular maintenance activities include:

- Content updates
- News updates
- Security monitoring
- Performance optimization

11. Deliverables

Deliverable	*Description*
Website design	Professional corporate design
Website development	Fully functional website
Contact integration	WhatsApp and enquiry forms
Content management	Ability to update content
