QUANTIS TECHNOLOGIES (PRIVATE) LIMITED

QUOTATION

SCOPE OF WORK (SOW)

Development of Chilmund Corporate Website (Custom Web Application)

Client:	Chilmund Chemicals (Pvt) Ltd
Service Provider:	*Quantis Technologies Private Limited*
Project Type:	Custom Corporate Website
Technology Stack:	Next.js + Payload CMS + PostgreSQL + Vercel
Date:	04 March 2026

1. PROJECT OVERVIEW

The objective of this project is to design, develop, and deploy a **modern, dynamic, and fully responsive corporate website** for Chilmund Chemicals that enhances digital presence, improves customer engagement, and supports business growth across regional markets.

The system will be developed as a **custom web application**, enabling:

- Full content management capability
- Lead generation and customer engagement
- SEO optimization and analytics tracking
- Scalable architecture for future expansion

2. PROJECT OBJECTIVES

2.1 Primary Objectives

- Develop a **high-performance corporate website**
- Provide a **content management system (CMS)** for internal updates
- Enable **instant customer communication (WhatsApp, Call, Email)**
- Showcase **products, services, and industrial capabilities**
- Improve **brand positioning and credibility**

2.2 Secondary Objectives

- Support **regional market visibility**
- Enable **lead capture and enquiry tracking**

- Provide **search engine optimization (SEO) readiness**
- Ensure **mobile responsiveness and accessibility**

3. SCOPE OF SERVICES

3.1 UI/UX Design

- Custom corporate website design (no templates)
- Wireframes and page layouts
- Brand-aligned color schemes and typography
- Responsive design (desktop, tablet, mobile)
- User journey optimization for conversions

3.2 Frontend Development

- Development using **Next.js (React Framework)**
- Server-side rendering (SSR) for SEO optimization
- Fast-loading, optimized pages
- Interactive UI components and animations
- Fully responsive interface
- Multi-language support

3.3 Backend & CMS Development

- Implementation of **Payload CMS (Headless CMS)**
- PostgreSQL database setup
- Admin dashboard for content management
- Role-based access for administrators
- API endpoints for frontend integration

3.4 Website Modules & Pages

Core Pages

- Home Page
- About Us
- Contact Us

Business & Product Modules

- Products & Services Listing
- Individual Product Detail Pages
- Uses of Aluminium Sulphate (Educational Content)
- Manufacturing Plant Overview
- Trucking & Logistics Services

Corporate & Branding Modules

- Partnerships & Accreditations
- SHEQ (Safety, Health, Environment, Quality)
- Corporate Social Responsibility (CSR)
- Industry Awards & Recognition

Dynamic Content Modules

- News & Events (CMS-managed)
- Regional Markets Served

QUANTIS TECHNOLOGIES

3.5 Contact & Lead Generation Features

- Contact forms (with backend storage)
- Quick Quote Request system
- Floating WhatsApp integration
- Click-to-call functionality (mobile optimized)
- Email notification system for enquiries

3.6 SEO & Analytics

- SEO-friendly URLs and metadata
- Sitemap generation
- Google Analytics integration
- Keyword optimization structure
- Performance optimization (Core Web Vitals)

3.7 Media & Content Management

- Image and document upload system

- Product datasheet downloads
- News/event publishing via CMS
- Editable homepage sections

3.8 Hosting & Deployment

Infrastructure

- Deployment on **Vercel Cloud Platform**
- Domain configuration and SSL setup
- CDN-based content delivery

Security

- Secure server configuration
- HTTPS encryption
- Basic firewall protection

Performance

- Optimized build and deployment pipeline
- 99% uptime target

3.9 Training & Handover

- CMS training for staff
- User manual/documentation
- Admin account setup
- Post-launch support guidance

4. DELIVERABLES

- Fully functional corporate website
- Admin CMS dashboard
- Source code repository (GitHub)
- Deployment on live domain
- Technical documentation
- Training session for administrators

5. PROJECT TIMELINE (ACCELERATED – 2 WEEKS)

Phase	Activity	Duration
Phase 1	Requirements confirmation & planning	1–2 days
Phase 2	UI/UX design & approval	2–3 days
Phase 3	Development (Frontend + Backend)	5–6 days
Phase 4	Content integration	2 days
Phase 5	Testing & optimization	1–2 days
Phase 6	Deployment & launch	1 day

6. ROLES & RESPONSIBILITIES

Service Provider

- Design, development, and deployment
- System testing and optimization
- Training and support

Client (Chilmund)

- Provide content (text, images, product info)
- Approve designs and milestones
- Provide branding assets (logo, colors)

QUANTIS TECHNOLOGIES

7. ASSUMPTIONS

- Content will be provided on time
- Feedback will be given within agreed timelines
- Domain access will be provided by the client

8. EXCLUSIONS (OPTIONAL ADD-ONS)

- E-commerce functionality
- Advanced ERP integrations
- Mobile application development

9. ESTIMATED COST STRUCTURE (USD)
