

QUANTIS TECHNOLOGIES (PRIVATE) LIMITED

SERVICE LEVEL AGREEMENT (SLA) AND WEBSITE DEVELOPMENT CONTRACT

This Agreement is entered into between:

Client: Chilmund Chemicals Private Limited,
114 Harare Drive, Marlborough, Harare

Service Provider: Quantis Technologies Private Limited,
Suite R8, Kuwirirana House Cnr Angwa and George Silundika, Harare

Effective Date: 01 April 2026

1. Scope of Work

The Service Provider agrees to design, develop, and deploy a custom corporate website, including frontend, backend CMS, integrations, and deployment as per agreed specifications.

1.1 The detailed Scope of Work, project timeline, and cost structure are outlined in Appendix 1 (Quotation Document), which forms part of this agreement.

1.2 In case of conflict, this agreement shall take precedence.

2. Payment Terms

2.1 One-Time Development Cost: USD 1,515

2.2 Annual Recurring Cost: USD 1,025

2.3 Payment Structure (Development):

- 50% (USD 760) – payable upon project initiation
- 30% (USD 455) – payable upon completion of development phase
- 20% (USD 300.00) – payable upon deployment and go-live

2.4 Annual Services:

The annual recurring cost shall be payable quarterly or yearly in advance, as agreed.

2.5 Definitions:

- Development Phase: Design, coding, system build, and internal testing
- Deployment Phase: System configuration, hosting setup, domain linking, and go-live release

3. Intellectual Property (IP) Ownership

Upon full payment of the development cost, all intellectual property rights related to the final website including: source code, design, and content—shall be transferred to the Client.

The Service Provider retains the right to reuse general, non-client-specific frameworks, tools, and technical knowledge.

4. Hosting & Infrastructure

Hosting may be structured under Service Provider-managed infrastructure.

In all cases, the Client retains full ownership of all data and content.

4.1 The Client shall be granted access to:

- CMS Admin Dashboard
- Backup exports upon request

4.2 Structural/system-level access (e.g., source code repository, server configurations) shall be managed by the Service Provider to ensure system integrity and security.

4.3 Full access may be granted upon project termination, subject to settlement of all outstanding payments.

5. Post-Launch Support (Warranty)

5.1 The Service Provider shall provide a 90-day (3 months) post-launch support period covering:

- Bug fixes
- Performance adjustments
- Minor refinements

5.2 Major changes refer to structural system modifications, including:

- New features
- System redesign
- Integration with new systems
- Multi-language content expansion

Such changes are not covered under warranty and shall be treated as separate work.

6. Limitation of Liability

The Service Provider shall not be liable for indirect, incidental, or consequential damages. Total liability shall not exceed the total amount paid under this agreement.

This limitation does not apply to:

- Breach of intellectual property rights
- Data confidentiality breaches caused by negligence
- Failure to provide agreed deliverables upon termination

7. Service Levels

7.1 Uptime Target:

The Service Provider shall target 99% uptime annually.

7.2 Incident Response:

- Initial response: within 2 hours during business hours
- Resolution target: within 8–24 hours depending on severity

8 Communication:

Where resolution cannot be achieved within the target timeframe, written communication shall be provided with status and expected resolution time. All official communication regarding critical and structural issues shall be conducted via email to nbhero@chilmund.co.zw and copied to:

- gcharis@chilmund.co.zw
- smadzudzo@chilmund.co.zw

The Service Provider shall also provide communication through agreed channels where necessary.

8.1 Delays in Project Completion:

Where delays are caused solely by the Service Provider, a grace period of 7 days shall apply. Beyond this, mutually agreed remedies may be applied.

8.2 Exclusions:

Service level commitments do not apply in cases of:

- Force majeure events (see sub-section 8.3)
- Third-party service failures (hosting providers, DNS, etc.)
- Client-caused issues or delays in content provision

8.3 Force Majeure

Neither party shall be liable for failure or delay in performing obligations where such failure arises from events beyond reasonable control, including but not limited to:

- Global cloud outages (e.g., AWS, Vercel, hosting providers)
- Internet service disruptions
- Acts of God, natural disasters
- Government actions or regulatory restrictions

- Cyberattacks or infrastructure-wide failures

8.3.1 In such events:

- The Service Provider shall notify the Client within 2 hours where possible
- Provide mitigation or workaround recommendations
- Resume services as soon as conditions normalize

Force majeure events shall not attract penalties under this agreement.

9. Confidentiality

Both parties agree that any information, data, documents, content, or materials shared during the course of this engagement shall be treated as strictly confidential.

Such confidential information shall not be disclosed, reproduced, or used for any purpose other than the execution of this agreement without the prior written consent of the owning party.

This obligation applies to, but is not limited to:

- Business information
- Technical data and system architecture
- Website content and materials
- User data and operational processes

Each party agrees to take all reasonable measures to protect the confidentiality of such information and prevent unauthorized access or disclosure.

This confidentiality obligation shall remain in effect during the term of this agreement and shall continue for a period of **two (2) years after termination** of the agreement.

10. Exit & Transition Clause

In the event of termination of this agreement:

- The Client retains full ownership of all data and content.
- The Service Provider shall provide a full system handover, including source code and database export.
- Any outstanding payments must be settled prior to handover.
- Termination of this agreement shall require a minimum of 30 days written notice by either party.
- Reasonable transition support will be provided for up to 14 days.

11. Governing Law

This agreement shall be governed and interpreted in accordance with the laws applicable within the Republic of Zimbabwe.

12. Dispute Resolution

In the event of any dispute arising from or connected to this agreement, both parties agree to first seek resolution through mutual negotiation. If unresolved, the matter shall be referred to arbitration in accordance with the Arbitration Act of Zimbabwe.

Appendix

1. QUOTATION

SCOPE OF WORK (SOW)

Development of Chilmund Corporate Website (Custom Web Application)

Client: Chilmund Chemicals Private Limited,
114 Harare Drive, Marlborough, Harare

Service Provider: Quantis Technologies Private Limited,
Suite R8, Kuwirirana House Cnr Angwa and George Silundika, Harare

Project Type: Custom Corporate Website

Technology Stack: Next.js + Payload CMS + PostgreSQL + Vercel

Date: 04 March 2026

1. PROJECT OVERVIEW

The objective of this project is to design, develop, and deploy a **modern, dynamic, and fully responsive corporate website** for Chilmund Chemicals that enhances digital presence, improves customer engagement, and supports business growth across regional markets.

The system will be developed as a **custom web application**, enabling:

- Full content management capability
- Lead generation and customer engagement
- SEO optimization and analytics tracking
- Scalable architecture for future expansion

2. PROJECT OBJECTIVES

2.1 Primary Objectives

- Develop a **high-performance corporate website**
- Provide a **content management system (CMS)** for internal updates
- Enable **instant customer communication (WhatsApp, Call, Email)**
- Showcase **products, services, and industrial capabilities**
- Improve **brand positioning and credibility**

2.2 Secondary Objectives

- Support **regional market visibility**
- Enable **lead capture and enquiry tracking**
- Provide **search engine optimization (SEO) readiness**
- Ensure **mobile responsiveness and accessibility**

3. SCOPE OF SERVICES

3.1 UI/UX Design

- Custom corporate website design (no templates)
- Wireframes and page layouts
- Brand-aligned color schemes and typography
- Responsive design (desktop, tablet, mobile)
- User journey optimization for conversions

3.2 Frontend Development

- Development using **Next.js (React Framework)**
- Server-side rendering (SSR) for SEO optimization
- Fast-loading, optimized pages
- Interactive UI components and animations
- Fully responsive interface
- Multi-language support

3.3 Backend & CMS Development

- Implementation of **Payload CMS (Headless CMS)**
- PostgreSQL database setup
- Admin dashboard for content management
- Role-based access for administrators
- API endpoints for frontend integration

3.4 Website Modules & Pages

Core Pages

- Home Page
- About Us
- Contact Us

Business & Product Modules

- Products & Services Listing
- Individual Product Detail Pages
- Uses of Aluminium Sulphate (Educational Content)
- Manufacturing Plant Overview
- Trucking & Logistics Services

Corporate & Branding Modules

- Partnerships & Accreditations
- SHEQ (Safety, Health, Environment, Quality)
- Corporate Social Responsibility (CSR)
- Industry Awards & Recognition

Dynamic Content Modules

- News & Events (CMS-managed)
- Regional Markets Served

3.5 Contact & Lead Generation Features

- Contact forms (with backend storage)
- Quick Quote Request system
- Floating WhatsApp integration
- Click-to-call functionality (mobile optimized)
- Email notification system for enquiries

3.6 SEO & Analytics

- SEO-friendly URLs and metadata
- Sitemap generation
- Google Analytics integration
- Keyword optimization structure
- Performance optimization (Core Web Vitals)

3.7 Media & Content Management

- Image and document upload system
- Product datasheet downloads
- News/event publishing via CMS
- Editable homepage sections

3.8 Hosting & Deployment

Infrastructure

- Deployment on **Vercel Cloud Platform**
- Domain configuration and SSL setup
- CDN-based content delivery

Security

- Secure server configuration
- HTTPS encryption
- Basic firewall protection

Performance

- Optimized build and deployment pipeline
- 99% uptime target

3.9 Training & Handover

- CMS training for staff
- User manual/documentation
- Admin account setup
- Post-launch support guidance

4. DELIVERABLES

- Fully functional corporate website
- Admin CMS dashboard
- Source code repository (GitHub)
- Deployment on live domain
- Technical documentation
- Training session for administrators

5. PROJECT TIMELINE (ACCELERATED – 2 WEEKS)

Phase	Activity	Duration
Phase 1	Requirements confirmation & planning	1–2 days
Phase 2	UI/UX design & approval	2–3 days
Phase 3	Development (Frontend + Backend)	5–7 days
Phase 4	Content integration	2 days
Phase 5	Testing & optimization	1–2 days
Phase 6	Deployment & launch	1 day

6. ROLES & RESPONSIBILITIES

Service Provider

- Design, development, and deployment
- System testing and optimization
- Training and support

Client (Chilmund)

- Provide content (text, images, product info)
- Approve designs and milestones
- Provide branding assets (logo, colors)

7. ASSUMPTIONS

- Content will be provided on time
- Feedback will be given within agreed timelines
- Domain access will be provided by the client

8. EXCLUSIONS (OPTIONAL ADD-ONS)

- E-commerce functionality
- Advanced ERP integrations
- Mobile application development

9. ESTIMATED COST STRUCTURE (USD)

A. One-Time Project Implementation Cost

Component	Description	Cost (USD)
UI/UX Design	Custom interface design, wireframes, responsive layouts, corporate branding	250
Frontend Development	Next.js website development, responsive pages, animations, optimization	550
Backend & CMS Setup	Payload CMS / custom CMS configuration, PostgreSQL setup, admin dashboard	350
Feature Integration	Contact forms, WhatsApp integration, quick quote forms, SEO setup, analytics	250

Testing, QA & Deployment	Testing, bug fixing, live deployment, domain connection, SSL setup	115
Total One-Time Development Cost		1,515

B. Annual Recurring Cost

Component	Description	Billing Frequency	Cost (USD)
Web Hosting	Cloud hosting for frontend application (e.g. Vercel or equivalent)	Yearly	240
Database & Content Management Hosting	CMS/backend/database hosting and managed content infrastructure	Yearly	160
File Storage	Storage for product images, downloadable documents, media assets, backups	Yearly	120
Domain Renewal	Annual domain renewal (if managed under service provider)	Yearly	25
SSL & Security Management	SSL certificate management, security monitoring, uptime oversight	Yearly	60
Website Maintenance & Technical Support	Routine updates, minor fixes, monitoring, performance checks	Yearly	240
Content Management Support	Ongoing admin support for content updates, publishing assistance, CMS guidance	Yearly	180
Total Annual Recurring Cost			1,025

C. Grand Cost Summary

Cost Category	Amount (USD)
One-Time Development Cost	1,515
Annual Recurring Cost	1,025
Total First Year Cost	2,540

D. Additional Notes

You can also present it like this in the quotation:

Initial Project Cost

This covers design, development, CMS setup, testing, deployment, and launch of the Chilmund corporate website.

Amount: USD 1,515

Annual Subscription / Support Cost

This covers cloud hosting, CMS hosting, storage, routine support, monitoring, security management, and content management support.

Amount: USD 1,025 per year

E. Suggested Payment Structure

For Development

- 50% upfront
- 30% after design/development milestone
- 20% on deployment

For Annual Services

- 100% payable yearly in advance
or
- can be billed quarterly or monthly if preferred

10. PAYMENT TERMS

- 50% upfront (project initiation)
- 30% upon development completion
- 20% upon final delivery and deployment

11. WARRANTY & SUPPORT

- 30 days post-launch support
- Bug fixes and minor adjustments included
- Optional maintenance plan available

12. CONCLUSION

This project will deliver a **modern, scalable, and high-performing corporate website** that positions Chilmund Chemicals as a **leading industrial brand in the region**, while providing powerful tools for customer engagement and business growth.
